

C6-6C-LP

Designed for stability, the C6-6C-LP utilizes its side-mounted forklift stirrups to attach its casters. This design lowers the profile almost six inches and uses a cantilever system, with 5" and 6" phenolic casters, for easy maneuverability. Available with or without a manifold.

Key features:

- Low profile design saves critical vertical space when needed as well as lowering the center of gravity
- Available with or without a manifold
